

Ransonmoor DDC

Biodiversity Action Plan Report 2020-21

Note on 2020-21 report

In November 2020 ADA published the new updated IDB Biodiversity Plan along with guidance and a press release here:

<https://www.ada.org.uk/2020/11/ada-launches-updated-biodiversity-action-plan-for-idbs/>

Internal Drainage Board Biodiversity Action Plan

Guidance Document

November 2020

Table of Contents

Introduction.....	2
Biodiversity Action Planning for IDBs.....	3
1. The Biodiversity Audit.....	5
2. Evaluating and Prioritising Habitats and Species.....	6
3. Defining Objectives and Actions.....	8
4. Implementation.....	10
5. Monitoring and Reporting.....	12
Further Assistance.....	12

The Conservation Officer will begin moving Board reports into this new format as soon as possible and keep the Board informed of progress. The new reports are good news for the drainage industry as they reflect years of work by many people to ensure that the most up to date legislation, policy and approaches are accessible and practicable for those involved with water level management and, by extension, wildlife conservation. The existing BAP reports provide a good foundation on which to build and update as necessary.

Report Summary

Invasive species

None noted during visits.

Floating Pennywort continues to be found sporadically at the fringes of the Middle Level system but has not currently found its way in. All Boards are asked to keep an eye out for large rafts of a 'lily-leaf type' mass floating in the main channels as this is likely where it will turn up first. An information sheet will be shared separately and a training session has been suggested for later in the year.

Barn Owls

Sightings welcomed by the Conservation Officer. 2020 was an exceptionally poor year across the region.

Water Voles

Many excellent drains are found in the District and water voles should be considered present in most. There is a good variety of marginal riparian vegetation including sedges, grassy banks and substantial reed edges.

Boards are reminded to contact the Conservation Officer *before* any bank reprofiling or other works that may impact water voles take place. If unsure, please contact the Conservation Officer regardless.

The annual 5-year water vole survey of the District in partnership with the Wildlife Trust was scheduled for 2020. However due to Covid-19 this was *postponed* to 2021 and then subsequently to 2022. It was felt that causing any risk or anxiety to either volunteers, staff or landowners was unacceptable and therefore best to wait.

Mink

Mink project underway across the Middle Level; Cambridgeshire now has a dedicated mink officer, a funded position hosted by the Countryside Restoration Trust and Waterlife Recovery East (WRE). All sightings of this and other invasive species are important. A more comprehensive update is available in the 2020 Natural Level newsletter.

The CO thanks the Board for their purchase of a mink raft. This was deployed in July 2020 and a male mink was caught and despatched in August 2020 – demonstrating their ongoing presence in the area.

Kingfisher/Sand Martin

Sightings of these species in the breeding season are welcomed by the CO to help build a picture of how their populations fare across the region.

Badger

Badgers and their setts are protected in UK law but exclusion work is permissible under licence where a threat may be posed to land drainage. Such work is not always successful and can lead to further, more problematic, incursions so often the best course of action is to work around them. However, if this is not deemed possible the Conservation Officer should be contacted to determine the best course of action. Care must be taken not to disturb setts during routine management.

Otter

Sightings or reports welcomed. Signs indicate that otters are active in the District.

Bats

As part of works to replace the roof of Ransonmoor Pumping Station, a dawn and dusk survey of the building took place on 6th August and 8th September 2020, a box check was also made on 23rd July. These surveys revealed the presence of bats on site – including 3 common pipistrelles using the Board provisioned bat box. Following the surveys, the work was supervised by the Conservation Officer and completed safely without causing any disturbance to the bats.

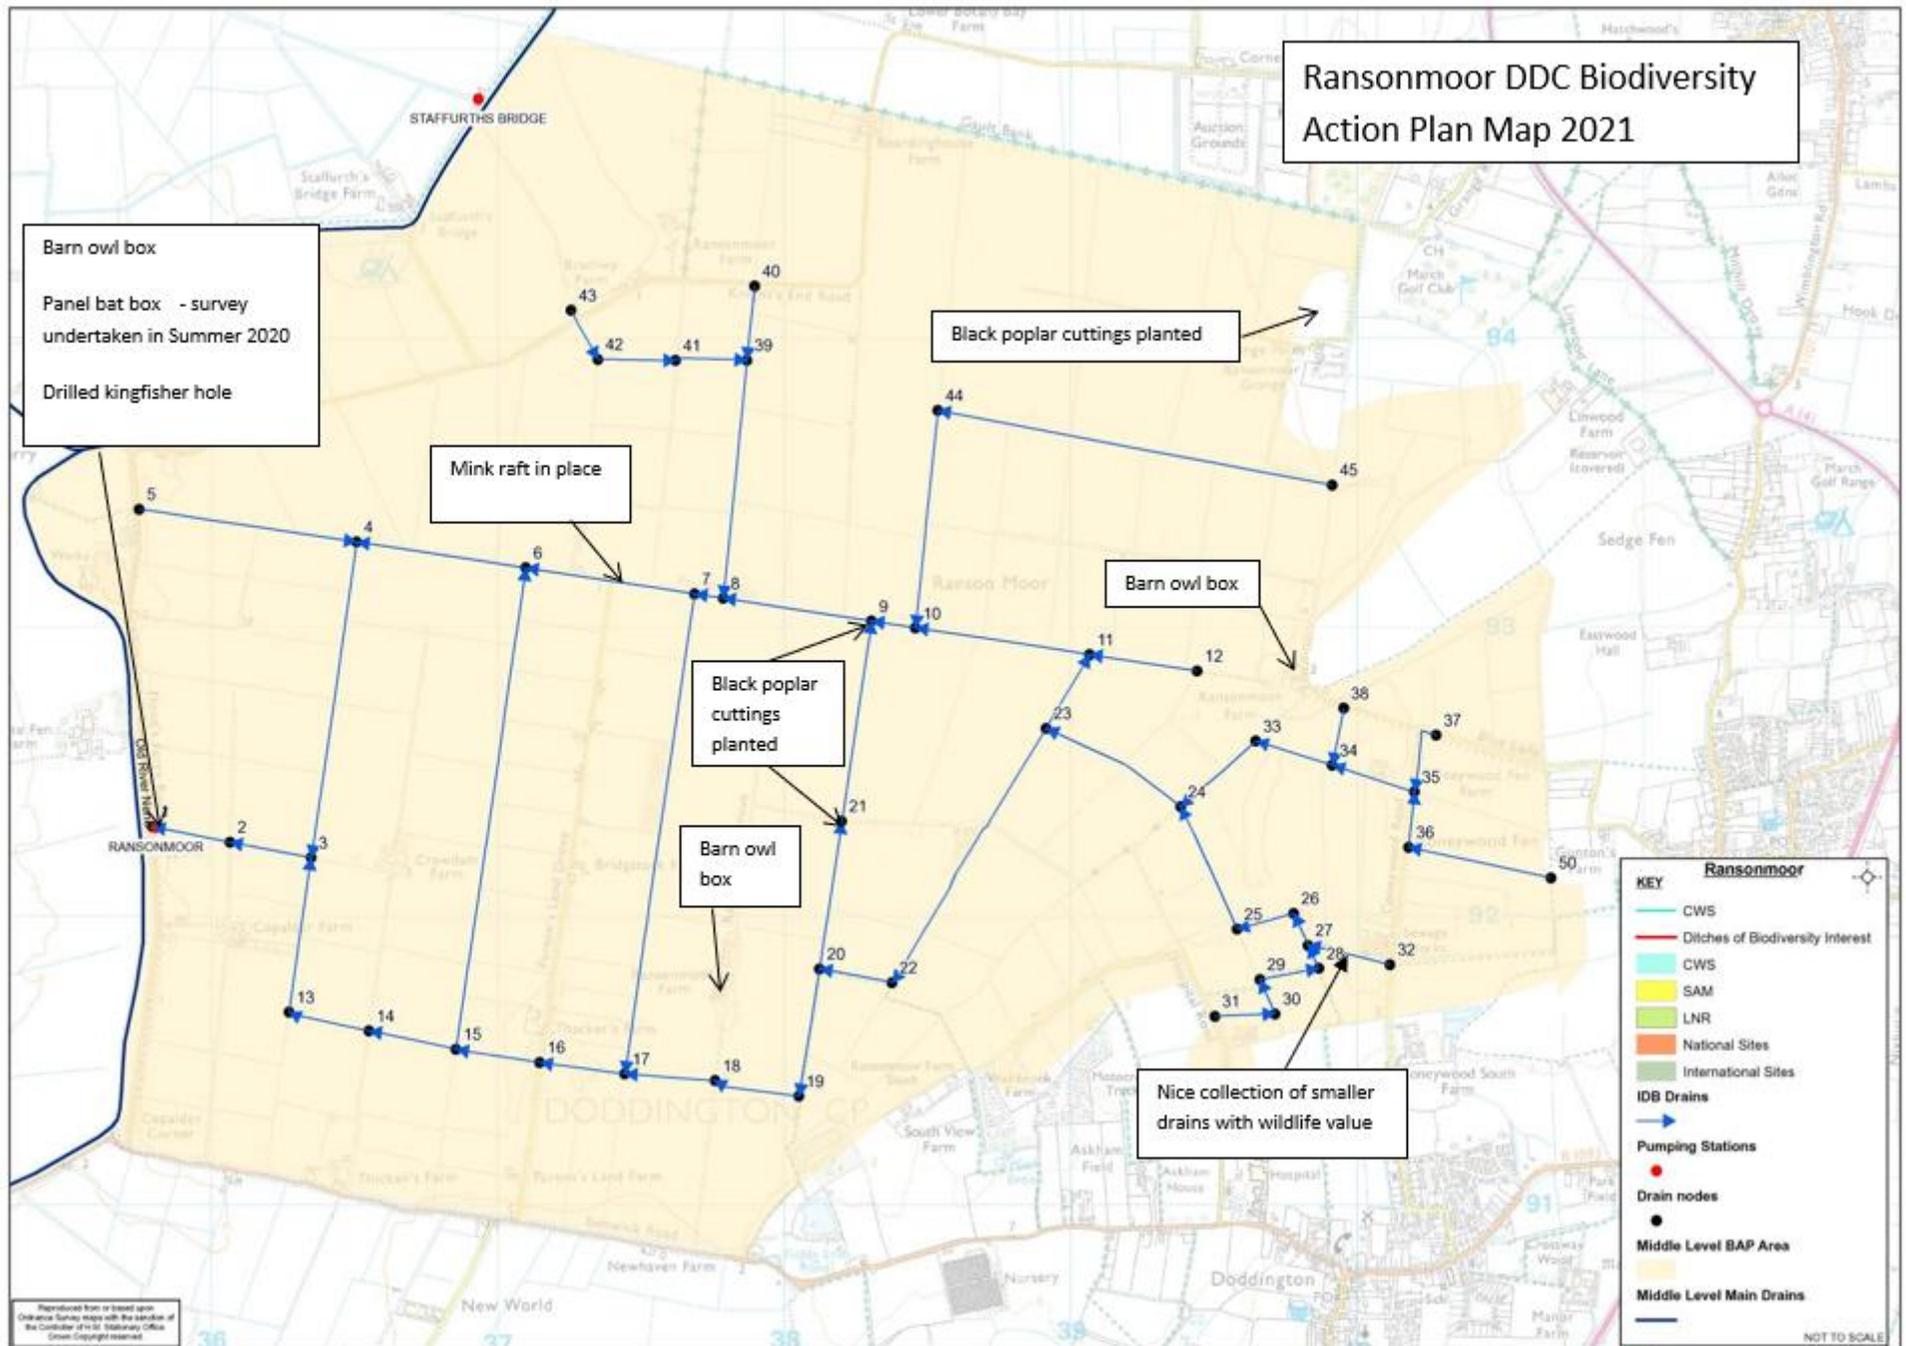

Other Environmental issues

Outbreaks of Bird Flu were reported in small numbers across the fens through winter 2020. Please contact the CO if you come across dead wildfowl, birds of prey or gulls.

Training/Advice

At present, the ongoing situation regarding coronavirus means no public events are planned, however when it is deemed safe to restart events opportunities will be looked at and the Boards informed. In the meantime, the Conservation Officer is happy to assist with any enquiries.

Drainage Ditch Action Plan

Target Reference	Target	Action Reference	IDB Actions	Partners	Date	Indicators	Report
1	Manage ditches for biodiversity as well as for drainage	1.1	Establish and maintain a management plan for routine IDB operations incorporating key biodiversity features	Conservation Officer	2015	Plan finalised and followed each year	<i>A map-based plan has been produced. It will be added to as further information becomes available.</i>
		1.2	Look for opportunities to provide natural erosion protection such as marginal plant ledges when re-profiling ditches	Conservation Officer	Ongoing	If re-profiling is carried out, opportunities identified	<i>No appropriate sites for this method were identified during the period.</i>
		1.3	Provide natural erosion protection as in 1.2 if opportunities available	Conservation Officer	Ongoing	Length of ditch with ledge / natural vegetation revetment	<i>No opportunities available</i>
2	Identify ditches of conservation interest and manage appropriately	2.2	Ensure appropriate management of ditches for priority species	Conservation Officer, Plantlife, Wildlife Trust	Ongoing	Specified in management plan	<i>All of the District drains are of priority interest for water voles.</i>
3	Support the Conservation Officer in working with landowners to benefit wildlife in the district	3.1	Refer private landowners to the Conservation Officer for advice on creating field margin buffer zones and wildlife-friendly ditch management	Conservation Officer, Natural England, Wildlife Trust, FWAG	Ongoing	Number of contacts received and passed to Conservation Officer	<i>None.</i>
4	Control invasive species	4.1	Report any sightings of non-native invasive species immediately to the Conservation Officer and control as appropriate	Conservation Officer, Environment Agency, Plantlife, Wildlife Trust	Ongoing	Reports to Conservation Officer	<i>Azolla previously recorded, no sign in 2020..</i>
5	Plant black poplars to increase existing population	5.1	Identify suitable sites and plant at least 2 young black poplars	Conservation Officer	2015	Number of trees planted	<i>Continue to monitor cuttings</i>

Reedbed Action Plan

Target Reference	Target	Action Reference	IDB Actions	Partners	Date	Indicators	Report
1	Identify, assess and map any areas of reedbed over 0.5ha in size	1.1	Pass details of any known areas to Conservation Officer	Wildlife Trust, Natural England, Environment Agency	2012	Review of reedbed areas carried out	<i>No new areas of reedbed over 0.5ha present.</i>
2	Support appropriate reedbed creation	2.2	Manage the District adopted drains, where possible, to assist private landowners who wish to create areas of reedbed on their own land	Wildlife Trust, Environment Agency	Ongoing	(a) Number of requests received (b) Number of landowners assisted	<i>(a)0 (b)0. No formal requests received.</i>
3	Take conservation value of reedbed into account when planning and carrying out ditch and river maintenance	3.2	Where reeds are present, commence mowing or cleansing work outside the bird breeding season (7 th April – 15 th July). Where reeds are growing in water be aware of the potential for late-nesting reed warblers being present until late August and avoid mowing in that location.	Conservation Officer, Wildlife Trust, RSPB	Ongoing	Reeds not cut during bird nesting season	<i>Reeds or other marginal vegetation were not cut during bird nesting season.</i>

Open Water Action Plan

Target Reference	Target	Action Reference	IDB Actions	Partners	Date	Indicators	Report
1	Promote the creation of ponds, lakes and reservoirs in appropriate areas	1.1	Consider pond creation as mitigation when a ditch has to be filled in or culverted	Local authorities, Amphibian & Reptile Conservation, Wildlife Trust	Ongoing	(a) Number of mitigation opportunities (b) Number of ponds created	<i>(a) 0 (b) 0</i>
		1.2	Support creation of flood storage areas and reservoirs	Environment Agency, Natural England, Wildlife Trust, RSPB	Ongoing	Number of projects involved with	<i>No approaches on reservoir creation projects occurred during the period.</i>

		1.3	Assist private landowners with advice, information or contacts as necessary	Amphibian & Reptile Conservation, Wildlife Trust	Ongoing	(a) Number of information requests (b) Number responded to	(a) 0 (b) 0. No formal requests received.
2	Look for opportunities to create open water habitat when managing ditches	2.1	Create a pool at an appropriate ditch junction when re-profiling (see the Drainage Channel Biodiversity Manual, technique CL3))	Conservation Officer	2015	One pool successfully created	No opportunities of this type occurred during the period.

Water Vole Action Plan

Target Reference	Target	Action Reference	IDB Actions	Partners	Date	Indicators	Report
1	Manage ditches according to the law and to best practice for water vole	1.1	Assume water voles are present when carrying out works (discuss special circumstances with the Conservation Officer) and follow the ADA water vole mitigation guide	Conservation Officer	Ongoing	Measures incorporated in management plans	Water vole friendly ditch maintenance practices were adhered to.
		1.2	Publicise good practice for rat control near drainage ditches	Conservation Officer, Wildlife Trust	Ongoing	Good practice publicised	Good practice for rat control was publicised via Environmental Officers newsletter issue 5.
2	Enhance drainage ditch habitat to benefit water vole	2.1	Look for opportunities to add a marginal shelf when re-profiling banks	Conservation Officer	Ongoing	(a) Opportunities identified (b) Measures taken	(a) No opportunities identified (b) No measures taken.
		2.2	Consider using coir roll to stabilise banks and provide marginal vegetation	Conservation Officer	Ongoing	(a) Sites considered (b) Measures taken	No appropriate sites for this measure identified.

3	Monitor water vole populations	3.1	Set up a survey programme to monitor water vole populations	Conservation Officer, Wildlife Trust	2010	Surveys carried out	<i>Survey of the District carried out by The Wildlife Trust in 2015. Due to be carried out again in 2020 but now postponed to 2022 due to Covid-19.</i>
		3.2	Provide data on water vole to the relevant Environmental Records Centres	Conservation Officer, CPBRC, NBIS	Ongoing	Data sent via Environmental Officer annually	<i>Records passed by the Wildlife Trust to the Environmental Records Centre.</i>
4	Control mink as necessary	4.2	Carry out mink control as part of the Middle Level programme and report all sightings to the Environmental Officer	Conservation Officer	Ongoing	(a) Number of trapping days (b) Number of mink caught	<i>One raft provided by the Board. One mink caught.</i>

Otter Action Plan

Target Reference	Target	Action Reference	IDB Actions	Partners	Date	Indicators	Report
1	Improve otter habitat	1.1	Identify and maintain existing key bushes and trees near watercourses likely to be important for otters	Conservation Officer	Ongoing	Sites identified and listed in management plans	<i>Key bushes and trees identified on the management plan.</i>
2	Monitor otter populations	2.3	Ensure any dead otters are reported to the Conservation Officer and transferred to the Environment Agency for post mortem	Environment Agency	Ongoing	Otters reported to Environmental Officer, if found	<i>No dead otters recorded.</i>
3	Reduce otter deaths related to eel and crayfish trapping and road traffic	3.1	Report incidents of suspected illegal netting, trapping or fishing to the Environment Agency Fisheries Officers and the Conservation Officer	Environment Agency, Angling Clubs & syndicates	Ongoing	Incidents reported, if discovered	<i>No illegal netting incidents recorded however incidents of otters being drowned in illegal eel nets remains a concern. Members are requested to be watchful for suspicious activity and report it to the Environmental Officer on 07765 597775 immediately.</i>

Bats Action Plan

Target Reference	Target	Action Reference	IDB Actions	Partners	Date	Indicators	Report
1	Improve habitat for bats	1.1	Put up at least 2 bat boxes at appropriate sites, e.g. pumping stations	Bat Conservation Trust	2015	Number of bat boxes sited	<i>Two boxes previously installed, one at Ransonmoor PS in 2013, one at Gault Wood in 2013.</i>
		1.2	Pollard suitable trees to provide bat roosts		Ongoing	Number of trees pollarded	<i>Suitable trees to be identified.</i>
		1.3	Identify potential sites for a bat hibernaculum, e.g. in disused buildings or tunnels	Conservation Officer, Bat Conservation Trust	As opportunities arise	(a) Potential sites looked for (b) Site created	<i>(a) Sites have been looked for but (b) no suitable sites for creation have been identified.</i>
2	Collect information on bat populations	2.1	Monitor bat boxes	Bat Conservation Trust	Ongoing	(a) Number of boxes monitored (b) Number of boxes used by bats	<i>See note in summary.</i>
		2.2	Pass bat box information to CPBRC and NBIS	Conservation Officer, CPBRC, NBIS	As available	Data via Conservation Officer annually	<i>Annual, when data available.</i>

Kingfisher Action Plan

Target Reference	Target	Action Reference	IDB Actions	Partners	Date	Indicators	Report
1	Improve the quality of kingfisher habitat	1.1	Provide at least one potential nest hole in sheet pilings	Conservation Officer	Ongoing	Number of nest sites provided	<i>Two. Two holes drilled in the PS outfall piles at the Old River Nene in 2015. One hole drilled previously at Ransonmoor PS intake.</i>
		1.2	Leave kingfisher fishing perches where possible (e.g. occasional branch)	Conservation Officer	Ongoing	Number of perch sites left	<i>Many natural perching sites exist on the Board's drains.</i>

2	Collect records of kingfisher breeding between March and July	2.1	Note sightings of potential breeding kingfisher and pass information to the Conservation Officer	Conservation Officer, CPBRC, NBIS	Ongoing	Data sent via Conservation Officer annually	<i>Monitoring to continue throughout the season.</i>
---	---	-----	--	-----------------------------------	---------	---	--

Barn Owl Action Plan

Target Reference	Target	Action Reference	IDB Actions	Partners	Date	Indicators	Report
1	Improve the quality of barn owl habitat	1.1	Put up at least 2 barn owl nest boxes in suitable locations	Wildlife Conservation Partnership	2015	Number of nest boxes provided	<i>3 nest boxes installed previously - Ransonmoor PS, Ransonmoor Farm (Alan Rose) & Ransonmoor Farm (Duncan Boughton).</i>
		1.2	Pollard suitable trees to provide natural nest sites	Conservation Officer	Ongoing	Number of trees pollarded	<i>Key trees identified on the BAP Plan map.</i>
2	Collect records of barn owl presence	2.1	Monitor nest boxes for use. Have occupied boxes checked for success by licensed barn owl ringers.	Wildlife Conservation Partnership	2015	(a) Number of nest boxes checked (b) Number of nest boxes used	<i>a) one b) one</i>
		2.2	Pass barn owl box information to CPBRC and NBIS	Conservation Officer, Wildlife Conservation Partnership, CPBRC, NBIS	2015	Data sent via Conservation Officer annually	<i>Data reported.</i>

Procedural Action Plan

Target Reference	Target	Action Reference	IDB Actions	Partners	Date	Indicators	Report
------------------	--------	------------------	-------------	----------	------	------------	--------

1	Provide training on IDB BAP and conservation management of drainage channels for all relevant staff by 2013	1.1	Establish programme of 1-day courses for IDB staff and members	Conservation Officer, Wildlife Trust, Natural England, other specialists	Ongoing	(a) Number of courses held (b) Number of Board members / staff attending courses	<i>No meetings held due to Covid-19. Boards will be informed of new dates when possible.</i>
		1.2	Establish suitable training for contractors' staff	Conservation Officer, Contractors	2013	Contractors attended training course	<i>No contractor training courses during the period.</i>
2	Take biodiversity into account when planning and undertaking capital works	2.1	Consult with the Conservation Officer and choose the best possible mitigation solutions for biodiversity, e.g. fish-friendly pumps	Conservation Officer	Ongoing	(a) Number of capital schemes undertaken (b) Number of schemes commented on	(a) 0 (b) 0
